DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 11, 13, 19-21, 23 are rejected under 35 U.S.C. 102(e) as being anticipated by Koyama et al. (6,607,280).

Koyama et al. (6,607,280) discloses an optical system comprising:

A light source (1);

A deflection device (2);

Optics comprised of a first optical system (7) having an entrance pupil (6a) at a first vertex and second optics (7') having an exit pupil (12a) at a second vertex, the exit pupil being an aperture stop. The linear projection path allows for distortion free projection.
